

From the Horses Mouth

Healthy Horse Keeping Seminar

The ACT Regional Landcare Facilitator Program invites the equine community to an evening of informative and engaging presentations from local and interstate equine educators and vets.

Speakers	Presentations	
Stuart Myers, Equiculture	Changing horse management practices to meet the needs of the 21st century horse	Horse management practices have evolved over the centuries, the changing role of horses and the lifestyles of modern horse owners have created different needs and issues from the 'traditional model'.
Jude Matusiewicz, Evidence Based Worming	Evidence Based Worming	Evidence-based worming is a scientific, yet practical approach to mitigating the growing threat of worm resistance to chemical wormers. Resistance is world-wide and escalating and Jude will talk about the international efforts to combat resistance and the important role that Faecal Egg Counts can play.
Kimberley King, "Riverview"	Adopting and Applying Evidence Based Worming at "Riverview"	Hear how Kimberley King has encouraged and enabled agistees at Riverview to undertake evidence-based worming. Including, some of the challenges and practical issues that Riverview have overcome.
ACT Government Vet, Parks and Conservation Service	Hendra Virus	The ACT Government vet will cover the following issues: What is Hendra virus, history/incidence of Hendra virus cases in Australia. Recognising Hendra virus in your horse and what do if you suspect my horse has Hendra virus. Testing for Hendra virus and Hendra virus biosecurity; minimising the risk .
Natasha Webb, Webb Equine Education	Poisonous plants	

When: Tuesday the 28th of March, 6:00pm – 9:30pm
